DETAILED ACTION

Withdrawal of Finality

1. Finality of prior Office Action is withdrawn and prosecution is reopened.
2. In view of Applicant's petition to withdraw the prior restriction requirement and to examine all claims, the prior restriction requirement is withdrawn and since all claims are to be considered, the original disclosure, exclusive of amendments is under consideration.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1 – 18, 37 and 38, drawn to a device, classified in class 385, subclass 37.
 - II. Claim 19 – 36, 39 and 40, drawn to a device, classified in class 257, subclass 777.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the means for replacing a defective wafer can be accomplished without an external device coupled to the data bus. The subcombination has separate utility such as a wafer to wafer interconnect.
3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 2814

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
